SCOOTY

Scooty is an Indian brand of Scooters manufactured by TVS Motors. Designed for women, Scooty is the largest selling Scooter brand in its segment. It has come to represent a generic name for any women's two-wheeler in India

IDEAL ADMIN PANEL

Aside from information and user management, here are the other key features commonly found in admin panels: Management of products, workflows, forms, and other core processes that deal with the very purpose of the app (e.g. order management for eCommerce platforms; form-builder for data collection apps)

MOBILE APPLICATION FOR DRIVER AND PASSENGER

vUber is most highly rated for Work/life balance and Rapido Bike Taxi is most highly rated for Culture. Learn more, read reviews and see open jobs.

EFFORTLESS SIGNUP PROCESS

The feeling of excitement of owning a bike or a scooter can be unparalleled. Buying a two-wheeler can be one of the most important aspects of one's life journey. You will be investing your hard-earned money and you want to be sure how your money is being used by purchasing a new vehicle. Before you buy your dream bike or scooter, you need to be alert and ensure you do not miss out on anything, even the documents required for a new two-wheeler purchase in India. Read on to find out about the documents required while buying a bike from a dealership as well as documents for bike loan or finance.

CYCLE

Because of new technology, there are entries of multiple new features across all vehicles.

FEATURES

1. Disc Brakes. Disc brakes are a lot better than the conventional brakes that we have on the cycles and are known to provide better stopping power in various conditions.
2. Shock Absorbers.
3. Headlight and Taillight.
4. Bottle Holder.
5. Electirc Horn.
6. Suspension: On mountain bikes, suspension almost goes hand-in-hand with the frame.

BENEFITS OF CYCLING

Cycling can help to protect you from serious diseases such as stroke, heart attack, some cancers, depression, diabetes, obesity and arthritis. Riding a bike is healthy, fun and a low-impact form of exercise for all ages. Cycling is easy to fit into your daily routine by riding to the shops, park, school or work.

HELICOPTER

l

A helicopter is a type of aircraft that uses rotating, or spinning, wings called blades to fly. Unlike an airplane or glider, a helicopter has wings that move. Unlike a balloon, a helicopter is heavier than air and uses an engine to fly.This allows the helicopter to take off and land vertically, to hover, and to fly forward, backward and laterally.

FEATURES

1. Prevent fuel from igniting on impact.
2. Quick release harnesses.
3. Floatation devices.
4. Impact resistance seats.
5. Structural elements.

USES OF HELICOPTER

1. Transportation of people and cargo.
2. Military uses and construction.
3. Search and rescue.
4. Firefighting.
5. Medical transport and law enforcement.
